

Ottawa, Week by Week

(By DEAN WILSON)

Canada's Parliamentary Reform

The acting leader of the Official Opposition in Parliament, Gordon Graydon, has come out with the important statement that he had urged in the last session in vain for the necessity of sweeping away some of the legislative cobwebs, but on that occasion the Prime Minister had thought that war-time was not the proper time to consider such changes in the rules and procedure of the House of Commons, though now the Prime Minister has seen fit to accept his suggestion since there was going to be a Special Parliamentary Committee to see how the rules and procedure of the House of Commons can be modernized and brought up to date. "Frankly, I have no imagination as to the way that Parliament has been conducting itself," declared Gordon Graydon. "I think it is safe to say that if this nation is to take its part in a new world, surely it is much to expect that Parliament shall give a lead in that direction."

Long and Lively Session Expected

As it has been forecast on several occasions by this veteran observer, the Government's legislative measures are so large and far-reaching that usually well-informed sources in the nation's capital are inclined to believe that this new session of Parliament will likely be a long one, unusually lively and extremely exciting, particularly in view of the hints or extensions already witnessed in Parliament on the new heavy legislative programme, the references to the famous speech of Lord Halifax on Empire relations, defence and other similar matters, and the declaration by Premier King on the question of a general election during the war. This is stressed at this time since the Government's new moves in Parliament are really far more comprehensive and extensive than the man-in-the-street seems to recognize right now, and the growing ambitions of opposing political parties are contemplated to affect the political atmosphere by expectation of thrilling events of unusual popular interest to the masses, with the extent of these events along Parliament Hill bound to be influenced strongly by any possible unusually important occurrences in

the war in Europe or in the Far East.

Complaint in Parliament

When two new members of his party were not provided rooms or seats in Parliament immediately on the first day of the session, a complaint was made to the C.C.P., criticized the Government on this ground. However, the Speaker indicated that he would try to do his best to get the party whips in this matter.

Meeting of Premiers

A question was asked Prime Minister Mackenzie King about reported conference in London of the Prime Ministers of the various Dominions, and Premier King replied that he had planned to be present at this important conference "unless prevented."

Hint of Early Election in Quebec

There may be held soon an election in the Province of Quebec, as the Conservative government has been making a strong case in Ottawa about the likely effects in the Federal field of such a test of public opinion. This conclusion has been inferred from a significant declaration in the legislature that that province by Premier Adolphe Godbout has remarked that "the Opposition leader, Maurice Duplessis, will soon have an opportunity of learning whether the opinion of him and his government."

Amazing Growth

The amazing growth of Canada's official business on account of the war has been shown by black and white figures by the startling report of the traffic strain in the excessively over-crowded capital, with the number of cars and motor engines carried by the Ottawa Electric Railway Company has increased from 108,000 in 1939, to 361,462 in the year 1943.

Hint of General Election

Indirect hints of situations in this country have been given frequently in the nation's capital, and the latest has been contained in the disclosure that more manpower may be provided for this country's gold mines which had suffered in this regard so far in this war, because previously it had been considered of more strategic importance to supply manpower for the production of certain urgently needed metals rather than gold. This proposed change in manpower is claimed, indicates the general betterment of the metal situation in this country which will allow more manpower for the gold mines. There had been a decline of almost 25 per cent in Canada's gold production in 1943, as compared with 1942, and this had been the lowest production of gold in seven years.

Canada's Most Valuable Assets

The importance of health laws providing better protection for this nation's most valuable assets—human lives—has been stressed again by an expert, Dr. A. S. Lamb, of McGill University, who has estimated that each day an average of about 60,000 persons are absent from work in industry on account of illness, and each day about 230,000 are unable to do their usual work, with Canada's annual direct cost for illness involving an expenditure of about \$300,000,000 of which, he claimed, about half of this terrific cost could be saved if proper measures were taken.

Numerous "Dollar-a-Year" Men

It has been reported in Ottawa that no less than 547 so-called "dollar-a-year" men have been serving the Government during this war, with the largest number (357) being with the Department of Munitions and Supplies, and the second largest number (216) with the Wartime Prices and Trade Board.

Hockey

Hanna versus Delia

Delia Junior Hockey team travelled to Hanna on Friday night and played in a friendly encounter with a local team. Messrs. John Kerr and H. Bell of Hanna took their own and the Delia boys to Hanna for the match, which was somewhat late in starting, another game being in progress. Delia had rather hard luck or else they were more practice, as they were only able to score once during the three periods of the game, per Billy Skelton. Kerr and Bepko presented a strong defence for Delia, while the forward line showed up well also.

Final score—Hanna, 5; Delia, 1.

Curling

Local Mixed Bonspiel

Delia curlers have been favored with ideal weather for their annual mixed bonspiel and the contest took place last Monday, with play starting each evening at 7 p.m. Some close and exciting games have been witnessed by the mass fans.

In the 7th round draw on Saturday night, Bert Hicks beat Andy Mann for two points, after a closely contested game all the way through. On the south sheet of ice, John Battie and I. J. Owen opened each other in a game that was mostly free and fast until the last end, when a tie of 8-8 was chalked up. Toward the end of play on the east sheet, it was up to either ship to win the game.

Battie was coming and had a good end on front just to the right of centre ice. Owen made a perfect draw shot right onto the button. Battie came down with another fine shot, knocking Owen's rock out and taking his place. Owen had fast rock and it looked as if he would win the game. But he threw narrow, striking the guard in front, his rock moving in the left hand corner.

The Battie rink winners by one point.

Canada 1944

The publication is announced by the Dominion Bureau of Statistics of the 1944 edition of the Official Handbook, "Canada," a copy of which we have just received.

"Canada 1944" covers the present situation in the Dominion from Atlantic to Pacific, the weight of emphasis being placed on those aspects that are currently of most importance. So far as space permits, all phases of the country's economic organization are dealt with and statistics are brought up to the latest possible date. The text is accompanied by a wealth of illustrative matter that adds to the interest of the subject treated.

The introduction reviews Canada's war program, covering the growth and activities of her Armed Forces, the financial aspects that have been taken, and the governmental organizations that have been created with their principal activities. It also reviews Canada's economic condition at the close of 1943, among other things.

The price of the publication is 25 cents per copy, which merely covers the cost of paper and press work. The special price concession granted to students and ministers of religion is also in force. While the publication has been discontinued on account of wartime conditions, it is still available, and applications must be accompanied by a postal note or by a coin enclosed between two squares of this cardstock gummed together at the edges.

Test Your Seed Grain!

Pioneer Elevators have available modern seed grain germinating testing machines. Any farmer wishing to have his seed grain tested for germination may obtain tests free of charge through any Pioneer Elevator.

Consult our agent in your district regarding any of your agricultural problems.

Drumheller Dysbryterial

Mrs. K. Hansen Elected Dysbryterial President

At a recent meeting of the Drumheller Dysbryterial Club, Mrs. K. Hansen was elected President. This was the second time she has held the position. The club is a non-profit organization for the purpose of helping dysbryterial patients. Mrs. Hansen is a well-known community worker and has been active in many other organizations. She is also a member of the local church and has been instrumental in many of its activities.

Mrs. Hansen was elected to the position of President for the year 1944. She will continue to work for the betterment of the dysbryterial community.

Hugh D. Sinclair Postmaster at Michichi, Dies

Hugh D. Sinclair, postmaster of Michichi, died on Tuesday, Feb. 15, at the age of 67. He was a well-known community worker and had been postmaster of Michichi for many years. He is survived by his wife and several children.

Refused to Give Up

A retired farmer who came to Alberta 42 years ago in Ontario. He was a well-known community worker and had been a member of the local church for many years. He is survived by his wife and several children.

Refuse Reduction in the Price of Gasoline

There will be no reduction in the price of gasoline, though the octane rating of No. 1 grade gasoline has been cut, according to information received by the Alberta Motor Association.

O.S.A. Experimental Union

The O.S.A. Experimental Union of Agriculture has available for distribution some excellent grades and seeds of grain and feed crops for 1944.

POLE SELECTIONS

Advanced entries may become a member of the Experimental Union by paying an annual fee of \$1.00. Members of the O.S.A. Annual Association may make selections without fee, but pay express charges.

1. Potatoes—Yield (medium early)

2. Potatoes—Yield (medium early)

3. Potatoes—Yield (late)

4. Rye—Yield (late)

5. Black currants—2 plants

6. Vegetables—2 plants

7. Garden peas—3 varieties

8. Sweet peas—1 variety

9. Blue beans—2 varieties

10. Red beans—2 varieties

11. Broad beans—1 variety

12. Chrysanthemums—2 varieties

13. Dahlias—2 varieties

14. Lily—2 bulbs

Our supply of some of this material is limited, so some substitution may be necessary.

Orders will not be accepted after April 15, 1944.

Membership fee of \$1.00, which includes shipping charges, must accompany selection. When parcel is received, it must be filed in and returned to the O.S.A., Oils, at the end of the growing season.

Soil Conservation Plan Needed

In the last instance of all the people of Canada and of agriculture to come, a national soil conservation program is needed in this country. More thought must be given to the care of the soil and the maintenance of the fertility. The program should include the management of good cultural practices to prevent soil erosion and to maintain a constant supply of plant food. It should not be forgotten, however, that in order to farm properly farmers must have a fair return for their products. When life becomes a struggle to make ends meet, a farmer had not much time or money to spend on soil conservation.

THE WORLD OF WHEAT

By H. O. C. STRANGE

The Wheat Surplus Is Disappearing

A few years ago many were contentedly alarmed about the Canadian and world wheat surplus. Today that wheat surplus is disappearing to the extent that the United States has become quite alarmed about it. They are helping their farmers to increase wheat acreage, they are importing materials from foreign countries that will take the place of wheat, and they are planning to import no less than 175 million bushels of wheat from Canada during this current year.

On Aug. 1st, 1943, Canada had on hand a surplus of wheat in 60 million bushels. By Aug. 1, 1944, I estimate that Canada will have on hand in elevators and on farms no more than about 400 million bushels and that the wheat surplus held by farmers their farms will be almost down to normal.

What a Godsend this large Canadian surplus of wheat has been to the war effort of the United Nations, and how fortunate it is for us all that we refused to listen to that International Wheat Committee and others who some years ago tried to tell us that we should artificially cut down our wheat surplus.

This all proves the growing belief ever widely held throughout the world, that it is a wrong thing to destroy, or to curtail the production of, essential foodstuffs.

Refuse Reduction in the Price of Gasoline

There will be no reduction in the price of gasoline, though the octane rating of No. 1 grade gasoline has been cut, according to information received by the Alberta Motor Association.

Better Seed—Better Crops

Quality in Canadian crops is helping to win the war.

The time quality will help to feed the people of the world is now. Quality crops also mean better returns for farmers. The only way to obtain and hold quality in crops is to use better seed. The reason for this is that the quality of the seed is the quality of the crop. The quality of the seed is the quality of the crop. The quality of the seed is the quality of the crop.

WORLD HAPPENINGS
BRIEFLY TOLD

Nearly \$2,000,000 is available as prize money in the Royal Navy and the division probably will not be decided until the end of the war.

Reconstruction Minister Lord Woolton has been awarded an honorary degree of doctor of laws at Liverpool University.

Promotion to the rank of captain of a nephew of Earl Jellicoe, Commander Jellicoe, has been announced by the Admiralty.

The number of depositors in the British post office savings bank has reached 17,100,000, approximately one in every three persons in Britain.

Alarms of the coastal command have been down more than 80,000,000 miles more than 2,000,000 miles in submarine raids.

The famed cathedral of Milan, Italy, has been entirely hand-carved in miniature, after more than three years of steady work. The model contains 1797 separate pieces of wood.

The Nairobi information office now issues 13,000 newsletters a week to African friends in Kenya. They are printed in four languages. The office also publishes a monthly publication in Swahili.

Defence headquarters at Ottawa announced that all cash allocations for Fifth Victory Loan bonds from March have been in accordance with the purchasers' wishes.

Lockheed Aircraft Corporation at Burbank, California, disclosed the invention of a machine designed to set from 12,000 to 70,000 miles an hour, compared with a normal rotary rate of 350.

Food Supply

Indians Raise Hops And Secure Important Supply For Themselves.

Another side of the hop production business is seen in an official report from Regina that it is being introduced on the Indian reserves, and among some of the tribes in Saskatchewan. Detailed success is reported from two reserves, with progress at other places.

The Indian Affairs Department supplies a few hops to each reserve or tribe; these are paid for by the Government from the increase in stock. The Indians thus secure an important food supply for themselves, with the Government distributes the hops, which are obtained from among the Indians during the winter.

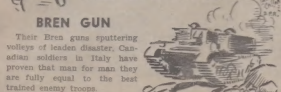

Which improves the economic position of the Indians is highly desirable, so that they are wards of the Crown. There are some engaged in horticulture in Regina, and in northern Manitoba, game preserves have been established for the benefit of Indian trappers—Winnipeg Free Press.

SELL HAP PROPERTY

Two city blocks in the Durnby Heights area of Vancouver, owned by Patricia in Japan for 30 years, have been purchased for approximately \$100,000 by a large local real estate firm. This is one of the largest parcels of property ordered and sold by the real estate company, property by authority of a recent federal order-in-council.

BREN GUN IN ATTACK

BREN GUN

The Bren gun spurring victories of leaders disaster, Canadian soldiers in Italy have proven that man for man they are fully equal to the best trained enemy troops.

A versatile weapon, equally useful for stationary and mobile firing, the Bren is a favorite among Canadians. Small, compact and easy to handle, it is particularly adaptable for troops advancing.

When it cannot make such progress against a tank or armor-plated, the Bren through long and constant use has been proven most efficient where impulses of infantry troops face each other. It is capable of firing both single rounds and bursts.

General Is Honored

Whitehouse Citizens Make Presentation To One Of The Builders Of Alaska Highway

Citizens of Whitehorse, Yukon Territory, a settlement on the headquarters of the Yukon river, paid tribute to Brig-Gen. James A. O'Connor, first commanding general of the United States army's northwest service command, who is leaving for another post. Gen. O'Connor, one of the builders of the 1,400-mile Alaska highway, has headed the command since it was established early in September, 1942.

He was presented with a gold-plated key to the community, a badge awarded by army and civil officials.

Gen. O'Connor first reported for duty in the far north at Fort St. John in April, 1942, when he was assigned to take charge of constructing the southern half of the Alaska highway. Six months later he was placed in supervision of the entire road.

"We of the American army are heavily indebted to the great people of Canada and Alaska for their cooperation, friendship and understanding," Gen. O'Connor said.

Some Gift

His Christmas Parcel Was A Deen From Santa Claus

Major Jim McAvoy, of Saint John, N.B., looked down from his armoured command vehicle up at a mound of snow and shrapnel, and sighed "At last" as he opened his first Christmas parcel.

Though it was late, it was some consolation in the midst of a weather. His wife has produced this year but the model looked muddier than ever when McAvoy got the parcel unwrapped.

It contains were a down tennis ball. Ray War Savings Stamps regularly.

Health
LEAGUE of CANADA
promotes TOPICS of VITAL INTEREST

PEOPLE EAGER TO LEARN ABOUT VENEREAL DISEASE

Representatives of the Canadian public health service have been touring the country, and in some cities hundreds were attending the special meetings, often opportunities will be offered.

In many large meetings and other civic organizations are giving strong support to the efforts of the Health League, the Junior Chamber of Commerce and other supporting organizations to bring solid public education to the people.

Among national organizations which have been active in the Health League for the voluntary educational program is the Canadian Pharmaceutical Association, with 3,500 members.

A feature of Social Hygiene Day observance was the address by Dr. Ian MacKenzie, minister of penitentiaries and national health, over the national network of the Canadian Broadcasting Corporation. He was followed on the air by the minister of health at most of the provinces, or their deputies, speaking over provincial networks.

Health Hygiene Day was only the first of the year for a year-round program, the Health League points out. It was an occasion for urging community support of these intensive efforts.

Racial Problems

Must Find Way To Live Together Harmoniously

The problem of the two major races, English and French, in Canada has not been properly solved, "and we must find a way to live together harmoniously if we are to have a really first-class nation," Dr. Robert Newton, University of Alberta president, said.

Speaking to student delegates at opening of the three-day conference to discuss the racial problem, Dr. Newton said the difference between nations and western Canada also must be integrated. "There must be a new recognition of partnership between capital and labor, with the recognition of the government as a third partner of the nation."

The conference, first of its kind in Canada, has been arranged by students from the universities of Manitoba, Saskatchewan, British Columbia and Alberta.

AFTER TWO CENTURIES

Prisoners were introduced to the United States from England, although they are native in South America. Four trips across the Atlantic and 200 years were required for the police to travel from Spain, Spain to Florida, Florida to England, and England to New England.

When gold is allowed to be useful, it is necessary to employ a base metal as an alloy, but platinum requires the more precious indium as an alloy.

THIS CURIOUS WORLD

By William Ferguson

Think of it. You can cut this cheery pattern 4998, from one yard of cotton fabric. Choose a pretty print and make it up with bright, contrasting lace binding. Use colorful pearls for a sewing or hostess gift. Try for a million uses.

Pattern 4998 is available in sizes small (35-41), medium (36-42) and large (40-42). Small size takes 1 yard 5/8 inch fabric.

Send twenty cents (20c) in coins (stamp cannot be accepted) for this pattern. Write plainly Miss Anna, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg, Newspaper Union, 175 McDermott Ave. St. Winnipeg, Man.

"Prisoner Type"

SUNDAY SCHOOL LESSON

February 27
JESUS PRESENTS HIMSELF AS THE MESSIAH

Golden text: Again the high priest asked him, and said unto him, Art thou the Christ? And he said, I am, Mark 14:61, 62. Lesson: Mark 11:1-12:46. Devotional reading: Isaiah 22:1-5.

Explanation and Comments
Jesus Presents Himself as the Messiah
Mark 11:1-10. We have only a promise of prophecy, a promise that Jesus will be a triumphant procession for which he is gloriously planned. He has been feared that popular interpretation of his words, his hour has come and he will publicly, counts the enthusiastic words of the people. The dramatic assertion of his kingdom.

When Jesus and his disciples reached the neighborhood of Bethphage and Bethany, he sent two of his disciples to the village to secure for him a colt that had never been ridden, directing them to loose the colt from the tethering and if questioned to simply say that the Master had need of him and would return him. The colt was found tied in the street at the door of a house, the disciples were challenged as they unlocked him, and upon replying as directed, they were allowed to lead the colt away. They threw their garments upon him, and he sat down and brought him to his Master.

"I beheld the procession descend the mountain bringing him, said the Egyptian to Ben Hur. "I heard them singing of triumph, a hymn of praise in motion. I looked every where among them for a figure who seemed to lead, a warrior in purple, a chariot with a driver in brown robes, a city warrior behind an orb shield, revealing his power as a prince of Jerusalem. It would have been pleasant to have seen a prince of Jerusalem and a cohort of the legions of God. Instead of a Colossus I beheld and I saw a Man, riding on an ass."

"The manner of his riding into Jerusalem was in keeping with all Jesus' appearing among men. The approach of it was struck at the very beginning on that First Christmas morn, when the King came as a helpless child, loaded with disabilities of flesh and family and position in the world. The stable and the manger mark the status of Jesus in Bethlehem as a child."

Egg Business

British Egg Farmers' Association Have A Worshy Fian

Three hundred eggs a year for everybody in Britain, an egg for each nearly every day, is the target set up by the British Egg Farmers' Association. A high target. To hit it they must mean to keep five that many laying hens as we did in pre-war years.

Let us set about it at once. Our land is admirable for raising hens, and hens are good for our land.

We do not mean to be poor in Britain after the war. But to be rich we must create real wealth, not merely golden eggs which you can not boil, fry or poach.

Government rulers designed to reduce our hen population should be swept away. Give the hen-keeper a chance to feed his flock with what he grows—London Express.

Bridge Over Suez Canal

Trains Can Now Run Direct From Egypt To Palestine

One of the developments of the war has been the building of the Suez Canal at Quaternia. Before the war was in operation, all trains from Egypt to Palestine and Syria went to Quaternia and were ferried across the canal by barge.

If most of the trains to Palestine and then sending them to Quaternia, the canal would be a great nuisance. The bridge will remain there after the war as one of the transportation improvements brought by hostilities.

WILL GROW THEIR OWN

Defence Headquarters announced from Ottawa that the armed forces are to grow their own carrots, beets and potatoes this winter on a voluntary basis—and that as and when they become available the vegetables will be used to help overcome any shortages across Canada.

LIFE'S LIKE THAT

By Fred Neher

Harold Taylor, 19-year-old merchant sailor, sailing out of England, was recovering after 16 weeks' convalescence from three operations. When he heard cries for help, however, he dived from Fleetwood dock and saved the lives of two men. Now he's back in hospital with his men he rescued.

A REAL TRAGEDY
To the life of war tragically and the experience of a family never removed to Boston, after sending an accumulated two-weeks' bundle to the laundry, got it back a week late—with the explanation: "Sorry, you've met a regular customer"—Christian Science Monitor.

Never mind about the comfort angle... get rid of that cable!?"

AN UNOUNCEMENT THAT WHEAT CARRAGE REDUCTION PAYMENTS WILL NOT BE MADE THIS YEAR

OTTAWA.—Agriculture Minister Gendron said in the commons that despite heavy proposed shipments of wheat to the United States there is no danger of a shortage in Canada even if this year's crop is poor.

The wheat began a review of agriculture department estimates, however, \$17,625,000 after approving wheat carriage reduction payments will not be made this year.

Mr. Gendron announced that wheat carriage reduction payments will not be continued this year. The program, designed to reduce wheat production and shipping costs at the same time, required an appropriation of \$20,000,000 in 1944-45. The 1944-45 appropriation of \$14,500,000 was expected to be sufficient to meet remaining claims and cover administration expenses.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

SERVING COUNTRY

Over 2,000 Canadian Indians are now on Active Service.

OTTAWA.—A "hardy warrior" from the Canadian Indians is represented by more than 2,000 volunteers on Active Service who are serving in the armed forces as enthusiastically as their forefathers did their tomahawks.

Dr. W. McMillan, superintendent of Indian affairs in the resources department, said the latest list of Indian volunteers showed 2,081 in the various fighting services, including some in the medical corps. He said that every tribe in Canada is represented. The total is not complete as it represents only the volunteers in the Indian army.

The available total of enlistments is "somewhat less" than that reported for the First Great War, officials said, but in the present war many Indians have been employed in essential work at home.

The majority has chosen to serve in the army, but there is a "sprinkling" of Indians in both the navy and air force.

In Ontario, 1,062 Indians have enlisted, while Saskatchewan volunteers total 282, most of them from the British Columbia enlistments were 249. In Quebec, 154; New Brunswick, 166; and in the Maritime Provinces, 104.

Alberta license plates read "EDMONTON"—Hon. A. J. Hoke, provincial secretary, announced that the 1943-44 Alberta automobile license plates will remain in effect in 1944-45, while every car in the province will be used in 1944-45.

The Canadian army, he said, has a surplus of officers. This would mean that the British army would be able to get the surplus of officers. The surplus of officers would be used in the Canadian army.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Mr. Gendron said that the wheat carriage reduction program was not continued this year because the wheat crop was not as good as in 1943 and the wheat crop was not as good as in 1943.

Opportune Flour Mill DELIA

Our Flour is always re-
fined. It is manufactured
from wheat grown in your
own district, and ground in
your own town.

Examine your own Flour Mill
Satisfaction Guaranteed.

Patrons are solicited to
bring in their wheat to ex-
change for flour, at the usual
rate.

TRY OUR NEW
Self-Rising Flour
For Cakes and Muffins
